Final Comprehensive Evaluation  
August 6, 2010

Name:

University/College:

Your evaluations are important parts of the assessment of effectiveness of this REU Site program. Please respond as honestly and candidly as possible. Disregard question which do not seem to be applicable by using N/A. Your ratings can range from 1 to 6, where 6 means excellent, 5 means very good, 4 means good, 3 means fair, 2 means poor, and 1 means very poor.

### Overall Rating

1. The opportunity for close interaction with the faculty members was:  
2. The opportunity to learn more about other student projects in addition to my own was:  
3. The opportunity to learn more about how to plan for graduate school and careers in computer science and engineering was:  
4. The opportunity to learn more about the general research processes and methods was:  
5. The opportunity to learn more about the CVMA related skills and techniques was:  
6. The opportunity to become familiar with the relevant scientific literature for my research project was:  
7. The opportunity to learn more about the publishing process was:  
8. The opportunity to co-author and publish a scientific paper was:  
9. The opportunity to learn about professional organizations and networking in engineering and career opportunities was:  
10. The development of a sense of how our research contributes to scientific knowledge was:  
11. The development of a mentor relationship with faculty on whom you can call for guidance in the future was:  
12. The development of the abilities to gain hands-on experience in real work applications was:  
13. The development of the abilities to apply CVMA-related technologies to real-world problems was:  
14. The development of skills in assimilating latest research was:  
15. The development of skills in assessing your own research was:  
16. The development of skills in writing research results was:  
17. The development of skills in making scientific presentations was:  
18. The development of enjoyable camaraderie relationship with other REU participants was:  
19. The understanding of the overall research project and how your work will contribute to its success was:  
20. The understanding of the practical applications of your research was:  
21. The feeling that you are part of the intellectual effort and not just a technical assistant was:  
22. The contacts and connections that you expect will pay off in the further were:
Questionnaires

1. Please summarize what you have learned in summer.
2. Please indicate the merits and shortcomings of the program.
3. To what extent the short introduction course helps you in your research?
4. Which techniques do you suggest us to explain more in the class?
5. Which techniques do you suggest us to eliminate from the class?
6. To what extent the reading materials help you in understanding the corresponding techniques?
7. Which reading materials are helpful to you?
8. Which reading materials are no help to you? Please list the useful reading materials you found by yourself.
9. To what extent the supporting programming assignments help you in your research?
10. Which supporting programming assignments are helpful to you?
11. Which supporting programming assignments are no help to you? Please indicate which kinds of supporting programming assignments you think would be helpful?
12. Which projects are interesting and should be kept for the next summer REU program and why?
13. Which projects should be eliminated from the next summer REU program and why?
14. Which other projects do you suggest us to have for the next summer REU program?
15. Can you identify two to three important ideas/advances/discoveries for the projects you would suggest us to keep?
16. What changes would you make to the REU program?
17. What future academic degrees do you plan to pursue?
18. Please include any addition comments you would like to share with us.

Contacts

We will contact you in Fall 2010 and Spring 2011 for the follow-up questionnaires. Please let us know your contact information.

1. Your permanent email (e.g., hotmail, gmail, or yahoo account)
2. Your school email
3. Your parents’ mailing address in case that we failed to find you for some reason
4. Your parents’ phone number in case that we failed to find you for some reason

Thank you. We hope you all the best in your future endeavor!
